Diagnosis report of

2016 FORD KUGA Titanium

Car Details

Color: Grey	CO ₂ NEDC Emission: 140 g/km
Fuel Type: Diesel	CO ₂ WLTP Emission: 0
Body Type: Suv	Low CO ₂ Emissions: No
Number Of Doors: 4	Engine size: 2 l
Number Of Seats: 5	Cylinders: 4
Mileage: 226 810 km	Power: 132 kw, 180 Hp
VIN Code: WF0AXXWPMAGB33193	Fuel Consumption: 5.4 I/100km
Gearbox: Automatic	Tire size: 235/55 17
Drive type: FWD	Longo Stock ID: N544926
Next technical inspection date: 05.06.2026	

Timing chain/belt replaced at: 170 786 km

Diagnosis report of

2016 FORD KUGA Titanium

Diagnosis details

Date of completion: 12.04.2024

Mileage on completion date: 226 810 km

Checked by Longo Shared Service certified diagnostics: Arnas S., A. R., Mindaugas G., Tomas B., Tautvydas B., Ugne D., Rokas V.

This car has been thoroughly checked according to **Longo 150-point checklist** which covers Body exterior, Interior, and Mechanical condition. We can confirm that it has never been involved in major accidents and has had regular maintenance, as well as mandatory roadworthiness tests in the country of export.

Please note that certain general wear and tear issues are considered acceptable and may not be repaired.

Summary of diagnosed issues

During the comprehensive diagnosis conducted by Longo, 41 issues were identified in the vehicle. 35 of these issues were rectified. 6 of the diagnosed issues are deemed to be fair wear and tear.

INTERIOR	EXTERIOR	MECHANICAL
	5 fair wear and tear	34 issues rectified
		1 fair wear and tear

3. SIDE: Left and right side - visual damage / scratches

4. SIDE: Left and right side - visual damage / scratches

5. REAR: Rear bumper - condition and alignment

Mechanical

1. ENGINE: Engine gasket

Longo 150-point checklist

Every vehicle is carefully examined according to Longo's comprehensive 150-point checklist, ensuring a thorough assessment of the car's interior, exterior, and mechanical condition. Depending on the factors such as condition, mileage, and specifications, additional checks may be included or certain points from the list may be omitted.

2. Record the fuel type 3. Record the transmission type 4. Record the registration number 5. Record the VIN number 6. Record the mileage 7. Record the year the car was manufactured 8. Record the date of first registration 9. Record the date/mileage of the last service 10. Record the date/mileage of the next service due 11. Check car's maintenance history and manufacturer recall and safety campaigns 12. Front lights (city, regular and full headlight, fog, indicator) - functioning & condition 13. Front light height adjustment system - functioning & condition 14. Lights on car sides - functioning & condition 15. Rear lights (brake, fog, indicator) - functioning & condition 16. Numberplate lighting system - functioning & condition 17. Rear reflectors - condition 18. Windscreen integrity - free from any damage that would exclude the vehicle from MOT test 19. Windscreen windows wiper rubbers and handles - condition 20. Front bumper - condition and alignment 21. Front grill - condition	52. Check AdBlue level and add if necessary (only for diesel cars) 53. Check AdBlue level and add if necessary (only for diesel cars) 54. Check key - functioning and condition 55. Check passenger chair airbag setting and reset to default 56. Dashboard - condition; operation of buttons 57. Steering wheel - condition 58. Steering wheel - operation of controls/buttons 59. Car horn - operation 60. Window wipers (front & rear) - functioning 61. Window wash system - functioning (front & rear) 62. Rearview mirror - operation and integrity of attachment 63. Sunvisors - operation and condition 64. Rearview mirror - operation and integrity of attachment 65. Headlining - condition 66. Roof items - electronic opening and condition 67. Navigation and radio system - operation 68. Rear view camera / proximity sensors - functioning 70. 12-volt and USB connectors - functioning 71. Heating system - functioning 72. Aircon system - functioning	102. Check timing belt or chain for integrity 103. Check timing belt or chain for any audible signs of problems (start & while idling) 104. Check for any signs of leakage of any liquids 105. Check level of coolant or anti-freeze in the tank 106. Add coolant if necessary 107. Check if coolant tank is filled with anti-freeze 108. Ensure engine cooling system is free of visual contamination 109. Check quality of brake fluid using the testing pen 110. Check powersteering fluid color (if dark, replace) 111. Check powersteering fluid level 113. Check oil level 114. Check if tyres are properly fitted (should be fitted in driving direction) 115. Check tyre prossure 117. Check tyre pressure 117. Check the additional set of tyres - check for any signs of cracks due to dehydration (if there is an additional set of tyres) 118. Check additional set of tires - Check tire profile (if there is additional set of tires) 119. Check the wheels for proper attachment (all bolts present and with correct tension) 120. Check the integrity and proper attachment of drivetrain system 121. Check the drivetrain attachment to engine for potential leaks
4. Record the registration number 5. Record the VIN number 6. Record the wileage 7. Record the year the car was manufactured 8. Record the date of first registration 9. Record the date/mileage of the last service 10. Record the date/mileage of the next service due 11. Check car's maintenance history and manufacturer recall and safety campaigns 12. Front lights (city, regular and full headlight, fog. indicator) - functioning & condition 13. Front light height adjustment system - functioning & condition 14. Lights on car sides - functioning & condition 15. Rear lights (brake, fog. indicator) - functioning & condition 16. Numberplate lighting system - functioning & condition 17. Rear reflectors - condition 18. Windscreen integrity - free from any damage that would exclude the vehicle from MOT test 19. Windscreen windows wiper rubbers and handles - condition 20. Front bumper - condition and alignment	54. Check key - functioning and condition 55. Check passenger chair airbag setting and reset to default 56. Dashboard - condition; operation of buttons 57. Steering wheel - condition 58. Steering wheel - operation of controls/buttons 59. Car horn - operation 60. Window wipers (front & rear) - functioning 61. Window wash system - functioning (front & rear) 62. Rearview mirror - operation and integrity of attachment 63. Sunvisors - operation and condition 64. Rearview mirror - operation and integrity of attachment 65. Headlining - condition 66. Roof items - electronic opening and condition 67. Navigation and radio system - operation 68. Rear view camera / proximity sensors - functioning 69. Parking assistance systems - functioning 70. 12-volt and USB connectors - functioning 71. Heating system - functioning	while idling) 104. Check for any signs of leakage of any liquids 105. Check level of coolant or anti-freeze in the tank 106. Add coolant if necessary 107. Check if coolant tank is filled with anti-freeze 108. Ensure engine cooling system is free of visual contamination 109. Check quality of brake fluid using the testing pen 110. Check the level of brake fluid 111. Check powersteering fluid color (if dark, replace) 112. Check powersteering fluid level 113. Check oil level 114. Check if tyres are properly fitted (should be fitted in driving direction) 115. Check tyre profile 116. Check tyre pressure 117. Check the additional set of tyres - check for any signs of cracks due to dehydration (if there is an additional set of tyres) 118. Check additional set of tires - Check tire profile (if there is additional set of tires) 119. Check the wheels for proper attachment (all bolts present and with correct tension) 120. Check the integrity and proper attachment of drivetrain system
5. Record the VIN number 6. Record the mileage 7. Record the year the car was manufactured 8. Record the date of first registration 9. Record the date/mileage of the last service 10. Record the date/mileage of the next service due 11. Check car's maintenance history and manufacturer recall and safety campaigns 12. Front lights (city, regular and full headlight, fog, indicator) - functioning & condition 13. Front light height adjustment system - functioning & condition 14. Lights on car sides - functioning & condition 15. Rear lights (brake, fog, indicator) - functioning & condition 16. Numberplate lighting system - functioning & condition 17. Rear reflectors - condition 18. Windscreen integrity - free from any damage that would exclude the vehicle from MOT test 19. Windscreen windows wiper rubbers and handles - condition 20. Front bumper - condition and alignment	55. Check passenger chair airbag setting and reset to default 56. Dashboard - condition; operation of buttons 57. Steering wheel - condition 58. Steering wheel - operation of controls/buttons 59. Car horn - operation 60. Window wipers (front & rear) - functioning 61. Window wash system - functioning (front & rear) 62. Rearview mirror - operation and integrity of attachment 63. Sunvisors - operation and condition 64. Rearview mirror - operation and integrity of attachment 65. Headlining - condition 66. Roof items - electronic opening and condition 67. Navigation and radio system - operation 68. Rear view camera / proximity sensors - functioning 69. Parking assistance systems - functioning 70. 12-volt and USB connectors - functioning 71. Heating system - functioning	105. Check level of coolant or anti-freeze in the tank 106. Add coolant if necessary 107. Check if coolant tank is filled with anti-freeze 108. Ensure engine cooling system is free of visual contamination 109. Check quality of brake fluid using the testing pen 110. Check the level of brake fluid 111. Check powersteering fluid color (if dark, replace) 112. Check powersteering fluid level 113. Check oil level 114. Check if tyres are properly fitted (should be fitted in driving direction) 115. Check tyre profile 116. Check tyre pressure 117. Check the additional set of tyres - check for any signs of cracks due to dehydration (if there is an additional set of tyres) 118. Check additional set of tires - Check tire profile (if there is additional set of tires) 119. Check the wheels for proper attachment (all bolts present and with correct tension)
6. Record the mileage 7. Record the year the car was manufactured 8. Record the date of first registration 9. Record the date/mileage of the last service 10. Record the date/mileage of the last service due 11. Check car's maintenance history and manufacturer recall and safety campaigns 12. Front lights (city, regular and full headlight, fog, indicator) - functioning & condition 13. Front light height adjustment system - functioning & condition 14. Lights on car sides - functioning & condition 15. Rear lights (brake, fog, indicator) - functioning & condition 16. Numberplate lighting system - functioning & condition 17. Rear reflectors - condition 18. Windscreen integrity - free from any damage that would exclude the vehicle from MOT test 19. Windscreen windows wiper rubbers and handles - condition	56. Dashboard - condition; operation of buttons 57. Steering wheel - condition 58. Steering wheel - operation of controls/buttons 59. Car horn - operation 60. Window wipers (front & rear) - functioning 61. Window wash system - functioning (front & rear) 62. Rearview mirror - operation and integrity of attachment 63. Sunvisors - operation and condition 64. Rearview mirror - operation and integrity of attachment 65. Headlining - condition 66. Roof items - electronic opening and condition 67. Navigation and radio system - operation 68. Rear view camera / proximity sensors - functioning 69. Parking assistance systems - functioning 70. 12-volt and USB connectors - functioning 71. Heating system - functioning	106. Add coolant if necessary 107. Check if coolant tank is filled with anti-freeze 108. Ensure engine cooling system is free of visual contamination 109. Check quality of brake fluid using the testing pen 110. Check the level of brake fluid 111. Check powersteering fluid color (if dark, replace) 112. Check powersteering fluid level 113. Check oil level 114. Check if tyres are properly fitted (should be fitted in driving direction) 115. Check tyre profile 116. Check tyre pressure 117. Check the additional set of tyres - check for any signs of cracks due to dehydration (if there is an additional set of tyres) 118. Check additional set of tires - Check tire profile (if there is additional set of tires) 119. Check the wheels for proper attachment (all bolts present and with correct tension) 120. Check the integrity and proper attachment of drivetrain system
7. Record the year the car was manufactured 8. Record the date of first registration 9. Record the date/mileage of the last service 10. Record the date/mileage of the next service due 11. Check car's maintenance history and manufacturer recall and safety campaigns 12. Front lights (city, regular and full headlight, fog, indicator) - functioning & condition 13. Front light height adjustment system - functioning & condition 14. Lights on car sides - functioning & condition 15. Rear lights (brake, fog, indicator) - functioning & condition 16. Numberplate lighting system - functioning & condition 17. Rear reflectors - condition 18. Windscreen integrity - free from any damage that would exclude the vehicle from MOT test 19. Windscreen windows wiper rubbers and handles - condition	57. Steering wheel - condition 58. Steering wheel - operation of controls/buttons 59. Car horn - operation 60. Window wipers (front & rear) - functioning 61. Window wash system - functioning (front & rear) 62. Rearview mirror - operation and integrity of attachment 63. Sunvisors - operation and condition 64. Rearview mirror - operation and integrity of attachment 65. Headlining - condition 66. Roof items - electronic opening and condition 67. Navigation and radio system - operation 68. Rear view camera / proximity sensors - functioning 69. Parking assistance systems - functioning 70. 12-volt and USB connectors - functioning 71. Heating system - functioning	107. Check if coolant tank is filled with anti-freeze 108. Ensure engine cooling system is free of visual contamination 109. Check quality of brake fluid using the testing pen 110. Check the level of brake fluid 111. Check powersteering fluid color (if dark, replace) 112. Check powersteering fluid level 113. Check oil level 114. Check if tyres are properly fitted (should be fitted in driving direction) 115. Check tyre profile 116. Check tyre pressure 117. Check the additional set of tyres - check for any signs of cracks due to dehydration (if there is an additional set of tyres) 118. Check additional set of tires - Check tire profile (if there is additional set of tires) 119. Check the wheels for proper attachment (all bolts present and with correct tension) 120. Check the integrity and proper attachment of drivetrain system
8. Record the date of first registration 9. Record the date/mileage of the last service 10. Record the date/mileage of the next service due 11. Check car's maintenance history and manufacturer recall and safety campaigns 12. Front lights (city, regular and full headlight, fog, indicator) - functioning & condition 13. Front light height adjustment system - functioning & condition 14. Lights on car sides - functioning & condition 15. Rear lights (brake, fog, indicator) - functioning & condition 16. Numberplate lighting system - functioning & condition 17. Rear reflectors - condition 18. Windscreen integrity - free from any damage that would exclude the vehicle from MOT test 19. Windscreen windows wiper rubbers and handles - condition 20. Front bumper - condition and alignment	58. Steering wheel - operation of controls/buttons 59. Car horn - operation 60. Window wipers (front & rear) - functioning 61. Window wash system - functioning (front & rear) 62. Rearview mirror - operation and integrity of attachment 63. Sunvisors - operation and condition 64. Rearview mirror - operation and integrity of attachment 65. Headlining - condition 66. Roof items - electronic opening and condition 67. Navigation and radio system - operation 68. Rear view camera / proximity sensors - functioning 69. Parking assistance systems - functioning 70. 12-volt and USB connectors - functioning 71. Heating system - functioning	108. Ensure engine cooling system is free of visual contamination 109. Check quality of brake fluid using the testing pen 110. Check the level of brake fluid 111. Check powersteering fluid color (if dark, replace) 112. Check powersteering fluid level 113. Check oil level 114. Check if tyres are properly fitted (should be fitted in driving direction) 115. Check tyre profile 116. Check tyre pressure 117. Check the additional set of tyres - check for any signs of cracks due to dehydration (if there is an additional set of tyres) 118. Check additional set of tires - Check tire profile (if there is additional set of tires) 119. Check the wheels for proper attachment (all bolts present and with correct tension) 120. Check the integrity and proper attachment of drivetrain system
9. Record the date/mileage of the last service 10. Record the date/mileage of the next service due 11. Check car's maintenance history and manufacturer recall and safety campaigns 12. Front lights (city, regular and full headlight, fog, indicator) - functioning & condition 13. Front light height adjustment system - functioning & condition 14. Navigation and radio system - operation 68. Rear view camera / proximity sensors - functioning 69. Parking assistance systems - functioning 70. 12-volt and USB connectors - functioning 71. Heating system - functioning	114. Check if tyres are properly fitted (should be fitted in driving direction) 115. Check tyre profile 116. Check tyre pressure 117. Check the additional set of tyres - check for any signs of cracks due to dehydration (if there is an additional set of tyres) 118. Check additional set of tires - Check tire profile (if there is additional set of tires) 119. Check the wheels for proper attachment (all bolts present and with correct tension) 120. Check the integrity and proper attachment of drivetrain system
15. Rear lights (brake, fog, indicator) - functioning & condition 16. Numberplate lighting system - functioning & condition 17. Rear reflectors - condition 18. Windscreen integrity - free from any damage that would exclude the vehicle from MOT test 19. Windscreen windows wiper rubbers and handles - condition 20. Front bumper - condition and alignment	65. Headlining - condition 66. Roof items - electronic opening and condition 67. Navigation and radio system - operation 68. Rear view camera / proximity sensors - functioning 69. Parking assistance systems - functioning 70. 12-volt and USB connectors - functioning 71. Heating system - functioning	115. Check tyre profile 116. Check tyre pressure 117. Check the additional set of tyres - check for any signs of cracks due to dehydration (if there is an additional set of tyres) 118. Check additional set of tires - Check tire profile (if there is additional set of tires) 119. Check the wheels for proper attachment (all bolts present and with correct tension) 120. Check the integrity and proper attachment of drivetrain system
16. Numberplate lighting system - functioning & condition 17. Rear reflectors - condition 18. Windscreen integrity - free from any damage that would exclude the vehicle from MOT test 19. Windscreen windows wiper rubbers and handles - condition 20. Front bumper - condition and alignment	66. Roof items - electronic opening and condition 67. Navigation and radio system - operation 68. Rear view camera / proximity sensors - functioning 69. Parking assistance systems - functioning 70. 12-volt and USB connectors - functioning 71. Heating system - functioning	116. Check tyre pressure 117. Check the additional set of tyres - check for any signs of cracks due to dehydration (if there is an additional set of tyres) 118. Check additional set of tires - Check tire profile (if there is additional set of tires) 119. Check the wheels for proper attachment (all bolts present and with correct tension) 120. Check the integrity and proper attachment of drivetrain system
17. Rear reflectors - condition 18. Windscreen integrity - free from any damage that would exclude the vehicle from MOT test 19. Windscreen windows wiper rubbers and handles - condition 20. Front bumper - condition and alignment	67. Navigation and radio system - operation 68. Rear view camera / proximity sensors - functioning 69. Parking assistance systems - functioning 70. 12-volt and USB connectors - functioning 71. Heating system - functioning	117. Check the additional set of tyres - check for any signs of cracks due to dehydration (if there is an additional set of tyres) 118. Check additional set of tires - Check tire profile (if there is additional set of tires) 119. Check the wheels for proper attachment (all bolts present and with correct tension) 120. Check the integrity and proper attachment of drivetrain system
18. Windscreen integrity - free from any damage that would exclude the vehicle from MOT test 19. Windscreen windows wiper rubbers and handles - condition 20. Front bumper - condition and alignment	68. Rear view camera / proximity sensors - functioning 69. Parking assistance systems - functioning 70. 12-volt and USB connectors - functioning 71. Heating system - functioning	dehydration (if there is an additional set of tyres) 118. Check additional set of tires - Check tire profile (if there is additional set of tires) 119. Check the wheels for proper attachment (all bolts present and with correct tension) 120. Check the integrity and proper attachment of drivetrain system
vehicle from MOT test 19. Windscreen windows wiper rubbers and handles - condition 20. Front bumper - condition and alignment	69. Parking assistance systems - functioning 70. 12-volt and USB connectors - functioning 71. Heating system - functioning	set of tires) 119. Check the wheels for proper attachment (all bolts present and with correct tension) 120. Check the integrity and proper attachment of drivetrain system
20. Front bumper - condition and alignment	70. 12-volt and USB connectors - functioning 71. Heating system - functioning	correct tension) 120. Check the integrity and proper attachment of drivetrain system
	71. Heating system - functioning	
21. Front grill - condition		121. Check the drivetrain attachment to engine for potential leaks
	72. Aircon system - functioning	
22. Hood - visual damage	-,	122. Check the integrity and the proper attachment of the wheelhouse
23. Hood opening & holding mechanism	73. Window heating mechanism - functioning (front & rear)	123. Check the wheelhouse for potential leaks
24. Hood sound insulation for condition	74. Seat heating system - functioning (driver & passenger)	124. Check for sings of slack while turning wheels to extreme position
25. Fire wall for condition	75. Seatbelts - functioning and locking mechanism	125. Check the brake disks for integrity and potential oxidation
26. Window washer fluid level (and adequate winter washer fluid)	76. Seat adjustment mechanisms - functioning (driver & passenger)	126. Check the brake pads for integrity and proper attachment
27. Integrity of front subframe	77. All seats - condition	127. Check the brake pads for thickness
28. Rear window integrity	78. Door handles - operation and condition	128. Check the integrity of brake hoses (signs of cracks from dehydration, misshaping and leakages)
29. Rear windows wiper rubber and handle	79. Electronic opening of all windows - functioning	129. Check the integrity of brake pipes (oxydation, misshaping and leakages)
30. Rear bumper - condition and alignment	80. Exterior side mirrors - electronic mirror controls, folding and adjustment mechanism	130. IF FITTED: check the brake drums for audible signs of any issues while turning the wheels
31. Tow hitch (attachment, removal mechanism, external light connector, thickness of connector) - functioning & condition	81. Interior lighting - basic functioning, damage	131. IF FITTED: check the hand brake cables for integrity
32. Trunk - visual damage	82. Armrest - operation and condition	132. Check for audible signs of any issues while turning the wheel
33. Trunk - opening and holding mechanism	83. Front trims for condition	133. Check for signs of vibration on rear of the wheel while turning at speed (check during Testdrive if any indication of problems)
34. Automatic closure mechanism of trunk - functioning	84. Rear trims for condition	134. Check for signs of vibration on rear of the wheel while turning at speed (check during Testdrive if any indication of problems)
35. Integrity of rear bottom plate	85. Door trims for condition	135. Check the drive shaft covers for proper attachment and integrity (mainly tearing)
36. Fix new numberplate	86. Ceiling trims for condition	136. Check for slack on stub axles
37. Exterior mirrors - integrity of mirror itself and attachment to the car	87. Gear shift boot/skirt and Gear shift knob - condition	137. Check the attachement and integrity of stub axles covers
38. The state of the wheels	88. Parking brake for condition	138. Check for proper attachment and any slack
39. Check body panel geometry	89. Floor mats for condition	139. Check the integrity of the springs (mainly for breaks)
40. Car all along the left side - visual damage / scratches	90. Parcel shelf - operation and condition	140. Check the proper attachment of shock absorbers
41. Car all along the right side - visual damage / scratches	91. Carpets in luggage area - condition	141. Check leakage of shock absorbers
42. All 4 doors - proper opening and closing, handles working properly, etc		142. Check the functioning of the shock absorbers while putting pressure on the car
43. Battery capacity	93. Test drive (performed if there are any indications that test drive is needed)	143. Check the engine mountings
44. Battery connectors - integrity and oxidation	94. OBD reading	144. Check the integrity and proper attachment of the fuel tank
45. Wiring integrity near battery	95. Satisfactory starting, general performance and the state of the vehicle	145. Check for potential fuel tank leaks
46. Battery properly fixed in the car	96. Check key components for integrity and proper attachment: air intake system, radiator, main hoses, cables and connectors	146. Check for integrity of visible fuel lines (should not scrub against any part and should be properly fixed near fuel pump)
47. Alternator charging the battery (14.2 volt)	97. Check drive (V-) belt for integrity (cracks and dehydration signs)	147. Check the integrity and proper attachment of exhaust system
48. Locking mechanism on all doors and trunk including fuel hatch - functioning	98. Check drive (V-) belt for tension	148. Check for leakages all along the exhaust system
49. Children's lock - functioning	99. Check serpentine (multi-) belt for integrity (cracks and dehydration signs)	149. IF ANY SIGNS OF REMOVAL: check presence of DPF filter or catalytic converter
50. Fuel filler system - functioning	100. Check serpentine (multi-) belt for tension	150. Check under the car for any signs of cracks due to dehydration

Stock ID: N544926
